Instructor Information:

Mr. Kevin Smith has taught science and mathematics for 17 years. He taught gifted science and gifted mathematics for the College Gifted Program at Bryn Mawr College in their summer program in Philadelphia, PA. He currently teaches Honors Science at the Dingman Delaware Middle School in Pike County.

Mr. Smith has a B.A. in Mathematics from Rutgers University and a Masters of Education in Science Education from East Stroudsburg University. He is the MathCounts coach and has taken his regional PA winning team to the state finals. Mr. Smith is enthusiastic about teaching science and math at the middle school level. He lives in Jermyrn with his wife and two children.

Fantastic Journey

Fly with Agent 77 on a fantastic journey to the outer reaches of the galaxy to rescue Agent 99 from planet 91. Stop on Mars on the way back and learn some way cool math and science experiments.

Highlights include:

- * Learn lightning mathematics using division.
- * Design, build and launch a water rocket with an egg.
- * Design and build a roll back devise.
- * Build a small battery to light an LED light
- * Build an electric motor and AM radio.
- * Design and build a Mars habitat with tunnels
- * Do labs involving density and pressure.
- * Demonstrations with dry ice.
- * And much more.
